Junior Test Ingenjör/student till H&D Wireless i Kista

Vi söker en Test & verifieringsingenjör för att verifiera vårt system för inomhuspositionering GEPS. Som medlem i test & verifieringsteamet arbetar du med att utveckla och programmera automatiska tester för att säkerställa funktion och prestanda hos våra produkter. Du utför även en del manuell testning i nära samarbete med våra mjukvaruutvecklare. Du bör kunna programmera i Python och gärna ha tidigare erfarenhet av mjukvaru- eller systemverifiering.

Vi söker dig som är student eller nyutexaminerad och kanske söker ditt första arbete efter studierna. Du får gärna vara noggrann, kvalitetsmedveten och målinriktad.

Tillsättning omgående, heltid eller deltid, månadslön, friskvårdsbidrag och flexibla arbetstider.

About H&D Wireless H&D Wireless is a Swedish supplier of technology and services within Internet of Things (IoT) and Realtime positioning (RTLS+GPS) with the Cloud platforms Griffin and GEPS. H&D Wireless was founded in 2009 and is among Sweden's fastest growing and most decorated IoT companies, with more than 1 Million wireless products shipped to date for IoT, M2M solutions across the globe. The company develops and supplies solutions for digitalization and optimization of Industry physical processes by Griffin Enterprise Positioning Service (GEPS™) built in artificial intelligence (AI) targeting Industry 4.0 and Smart factory. H&D Wireless Share is since December 2017 listed on Nasdaq First North in Stockholm with FNCA Sweden AB Certified Adviser. www.hd-wireless.com
