

# GEPS<sup>®</sup> FOR YARD MANAGEMENT

## KEY FEATURES

Streamline depot flow and facilitate planning of maintenance and repair.

Read out positioning status and temperature per bus in real time.

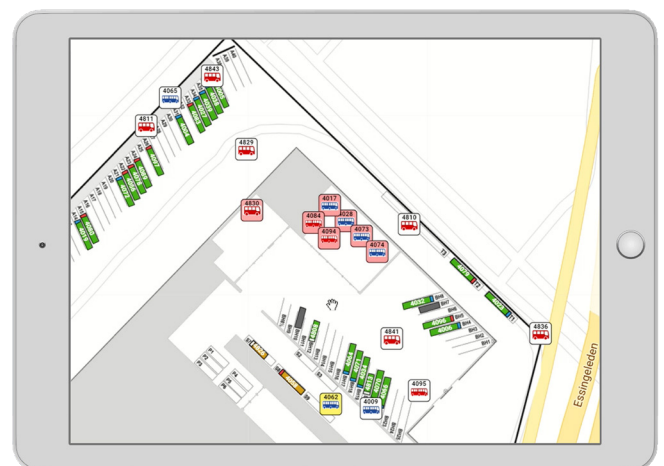

Save up to 30% work time for staff.

Visualize empty parking spaces and where buses are parked in real-time.

GEPS for Yard Management provides you with real-time visibility of asset locations and their operational status, including dwell times in various states. You can also reduce yard congestion and increase yard throughput.

*"The system visualizes and streamlines the handling of how we find buses at the depot. With GEPS we see clear improvements in our operations. We are enhancing our operations to deliver the best possible service and in the long run, win more tenders in a fiercely competitive marketplace."*

Jan Kilström, CEO Keolis Sverige AB.
